## Spring After-School Virtual Art Programs

We are currently in the middle of our six-week virtual art classes that began March 1. We are offering virtual art classes in Painting, Drawing, Photography, Special Effects Makeup, Acting, Musical Theatre, and Tap. Our next round of classes will begin the week of April 19. If you are interested or have friends or family members who are interested in these virtual classes, head on over to

<https://www.ibartsacademy.com>

to sign up students aged 9 - 18.

### Why is Art Important?

When we grid, measure, and draw — we use **geometry**. When we make sculptures — we use **engineering**. When we mix colors — we reveal information about **physics**. When we create illustrations — we learn about **literature**. When we learn about art from da Vinci to Banksy — we study **history**.

Students who take art score almost 100 points higher on their SATs than those who do not. Art teaches us to solve complex visual problems in creative and unique ways. Art helps us to explore all subjects in school, to reveal their connections and deepen our understanding of the world.

Even if you do not want to be an artist, the best lawyers, smartest scientists, top chefs, the most famous inventors, the most celebrated and successful people in every occupation have ONE thing in common: the ability to creatively solve problems!

**Art is the only subject that focuses on this.**

### Teacher Feature

This month's teacher highlight is Magali Salas. Magali is our Acting, Musical Theatre, and Tap instructor at IBAA. She also gives private piano and voice lessons.

Magali obtained a BFA degree from Azusa Pacific University in Acting for the Stage and the Screen. She has studied piano, voice and dance and has experience performing in various musicals and plays throughout the area. She is passionate about theatre because it is a powerful form of storytelling and

brings people together. Theatre

and music have the incredible ability to share hope and light to people at any stage of their lives and she is forever

grateful for her calling as an artist. God has brought her very far through this incredible art form and she hopes to share her passion and experiences with her students!

**“I want to help!  
How can I do  
that?”**

## 1. Tell Your Friends

In order for us to offer our unique and high-quality arts after-school program this spring, we need families to register their children to take our virtual classes. If you know of anyone who may be interested, have artistic children, whose kids need to get out of the house, or who would want to support us, please let them know of our program and send them to our website to learn more.

## 2. Donate and Volunteer

We need donors large and small to help offset the costs of this program of beauty, goodness, truth, and hope. We will also need volunteers to help us as we host art events, fundraising events, and our after-school program. If you want to either donate or volunteer, please go to our website and contribute. Thank you!

### 3. Pray for Us

If this academy is to be successful we need to cover it with continual prayer for God's direction and providence. Some specific things to be praying for:

- Pray that the students who attend the after-school program would be inspired learning who they are as image bearers of God to create to bring beauty, goodness, and truth to our culture.
- Pray for a location for our in-person classes. We want to offer in-person classes when it is safe to do so, but we will need a location for this to happen. Please pray for that location.

# Private Music Lessons

In addition to our virtual art classes that we are offering this spring, we are also offering private music instruction in piano, voice, and drum set. These lessons are offered to students aged 5 through 18. We offer these lessons at \$25 per week for a 1/2 hour lesson, and if you sign up today, your first lesson is FREE with no commitment to sign up once completed. If you've ever wondered if private music instruction would be right for your child, try us out for free today, and see how music instruction can benefit your student for life!
